CUE AI Business Operating System
The Heart of Your Business

Built by HASI Technologies

We found $31,000 in a store's first month — money they had already earned but never collected.

Not from cutting costs. Not from working harder. From reading the records the business already keeps, and catching what nobody was watching. Here's what CUE does.

> "Your CRM stores. CUE audits. If the 20-minute scan finds nothing in your numbers, you've lost a coffee break."

What CUE does for a business

Finds the money you're losing
Scans real records, shows every leak with evidence attached — not a vague warning.

Follows up automatically
Dead leads, overdue invoices, stuck deals — nudged before they go cold.

Runs the day from one screen
Leads, jobs, pricing, inventory, follow-ups — instead of six tabs and a notepad.

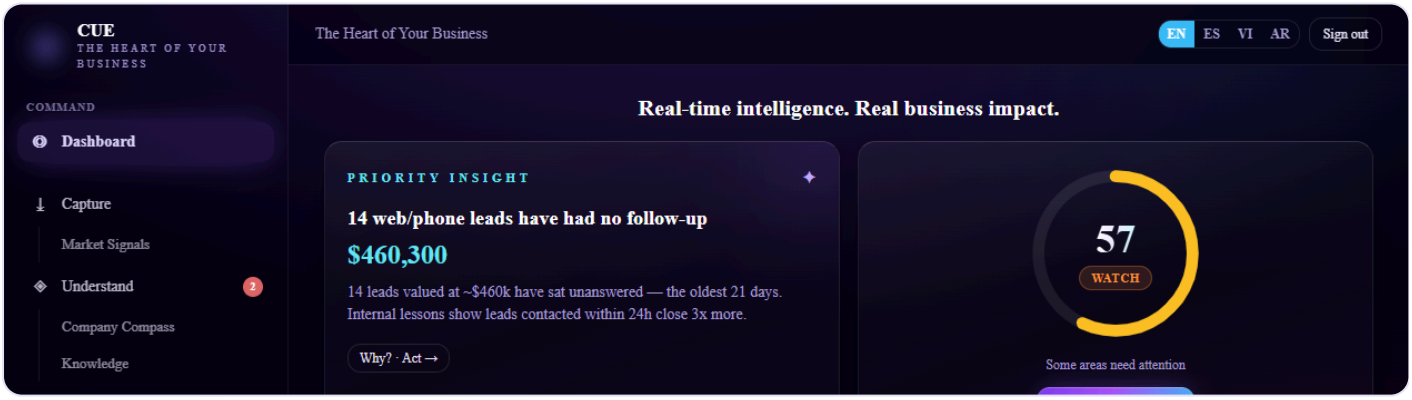

Answers 24/7 in your voice
An AI Ambassador replies from your actual records — in 4 languages.

Earns your accountant's trust
Every finding shows its source. Every action waits for your approval.

Evidence, permissions, audit — not another chatbot

- **Show the record.** Every dollar figure traces to a real invoice, lead, or repair order you can open — not a model's guess.
- **Ask permission.** CUE proposes actions — it does not send, bill, or price anything without approval. Nothing moves without you.
- **Keep the trail.** Every answer and every action is logged. When you hand your bank a report, you need the second kind of system.

CUE above the tools you already pay for

CAPABILITY	CRM / FSM / DMS TOOLS	CUE
Store leads, jobs, records	✓ that's its job — and it does it	Reads everything you already store
Find revenue leaks	— stores data, doesn't audit it	✓ every leak, with the source record attached
Every number traceable	— reports end at the export	✓ evidence behind every figure, always one click away
Actions without approval	— automates silently	✓ proposes and waits — full audit trail
Replace your tools?	✓ that's usually the sales pitch	Keep them. CUE is the layer above.

"Did my invoice go out?" — answered from the ledger, with the invoice number.

Same answer, same source record, spoken Spanish.

Grounded replies for Vietnamese-speaking customers and staff.

Full RTL support — answers cite the record, not vibes.

20-MINUTE SCAN | $0–199 PILOT | READ-ONLY EXPORTS | INDUSTRY PACKS: AUTO · HVAC · SALON · RETAIL

Pay for proof: bring your own exports and CUE finds the leaks or you've lost a coffee break. Every claim on this page traces to a verifiable record — that's the product. Your current vocabulary and branding apply per location (white-label ready).
