CUE AI Business Operating System
The Heart of Your Business

Built by HASI Technologies
Works in English · Español · Tiếng Việt · العربية

Find the money you're already earning but not collecting — from your own records, with evidence.

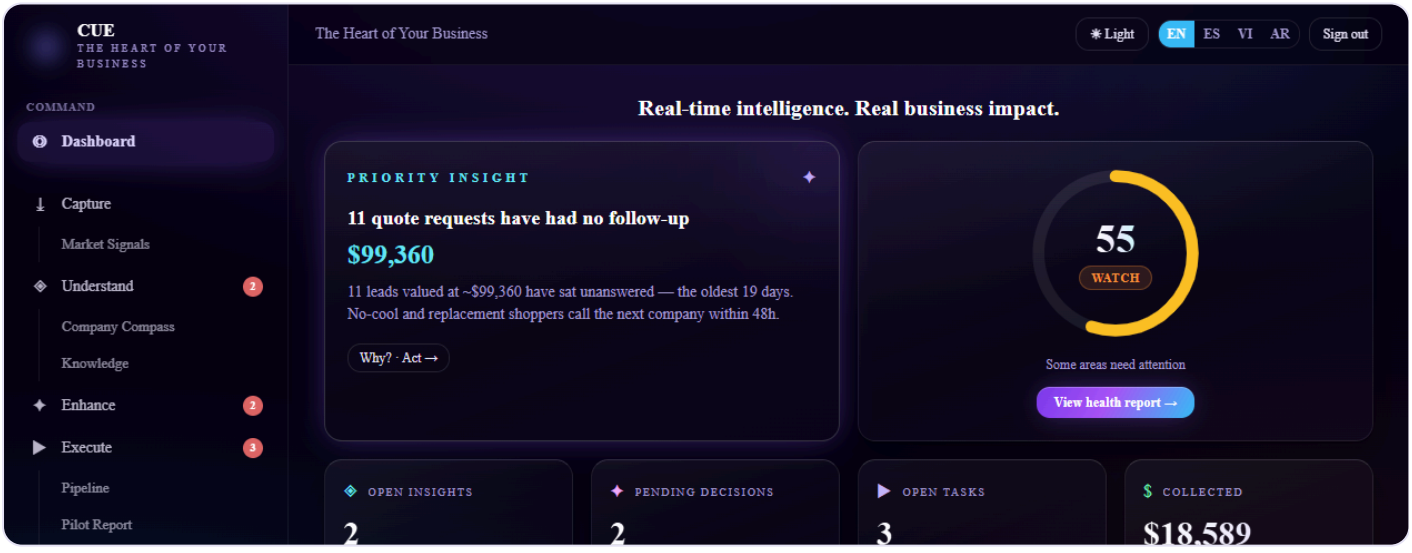

CUE reads your field-service data and shows exactly where revenue leaks: unbilled work, unanswered quote requests, aging quotes. Every number traces to a real record. **CUE prepares. You decide.**

$6,431	$99,360	$75,400	Same day
UNBILLED SERVICE CALLS (7 JOBS, OLDEST 14 DAYS)	QUOTE REQUESTS WITH ZERO FOLLOW-UP (11 LEADS)	EQUIPMENT QUOTES PAST THE 30-DAY WINDOW (7 QUOTES)	INVOICING RULE ENFORCED FROM YOUR OWN SOP — AUTOMATICALLY

What CUE catches in an HVAC shop

- **Completed calls, never invoiced.** The tech did the work; the invoice never went out. CUE flags every one against your own same-day rule — with the record attached.
- **Quote requests that went cold.** No-cool and replacement shoppers call the next company within 48 hours. CUE shows who's been waiting and what each is worth.
- **Aging equipment quotes.** Your repricing policy already allows discounts past 30 days — CUE finds the quotes where nobody pulled the trigger.
- **Agreement revenue left on the table.** Maintenance-agreement offers at every repair visit, tracked to the tech.

Live demo — computed from records, not slideware

30-DAY PILOT · ONE LOCATION · READ-ONLY EXPORT

Pay for proof: if CUE doesn't identify at least **$10,000 in documented leakage** from your records, the pilot costs nothing and you keep every finding. If it does, decide whether **$299–799/mo** is worth it. Every claim above traces to a verifiable record — that's the product.

20-minute scan call on **your** numbers · free · no pitch unless you ask
