PREPARED FOR: _____

Don't find $1,000 in documented leaks?
The pilot is free — and you keep every finding.

We scan YOUR records.
Every dollar traces to a real RO.

Your store is earning money that never gets invoiced, called back, or repriced.

CUE reads your own DMS, CRM, and accounting records and shows exactly where the revenue leaks — every number traces to a real record. **CUE prepares. You decide.**

$4,951
COMPLETED ROS NEVER INVOICED (ONE PILOT'S FIRST SCAN)

$460,000
LEAD VALUE WITH NO FOLLOW-UP LOGGED

$66,000
AGING INVENTORY PAST ITS REPRICE WINDOW

What CUE catches on your floor

- **Closed ROs, never billed** — flagged against your own 48h invoicing SOP, repair order attached.
- **Leads that went cold silently** — who's waiting, how old, and what each is worth.
- **Aging inventory** — units past day 30/45/60 where nobody pulled the reprice trigger.

1 Connect
Point CUE at your DMS, CRM, and accounting exports — read-only, no rip-and-replace.

2 Detect
CUE finds unbilled work, cold leads, and stale inventory — every number traces to a record.

3 Approve
CUE prepares the action; you push the button. Full audit trail, your rules.

✓ **Say it** — talk your notes; auto-transcribed and filed
✓ **Approve-only** — nothing executes without you, audit trail
